Proposal 2 Hlanganani Community Support Services

Website project proposal

Hlanganani Community Support is a nonprofit organization based in Pretoria Central. It helps underprivileged community with food distribution, volunteer projects and youth development. The group aims to support at-risk families by providing food relief, community education and youth empowerment programs.

➤ Organization overview

Mission

- *To improve the quality of life for vulnerable communities through social support, education programs and volunteer-driven initiatives.*

Vision

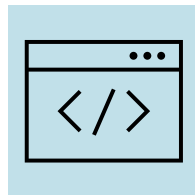

-
- *To build a stronger and more united community where everyone has access to basic needs and opportunities for growth.*

Target Audience

- *Community members are seeking assistance.*
- *Volunteers interested in community work.*
- *Sponsors and donors.*
- *Local businesses are interested in partnerships.*

➤ **Website goals and objectives**

Website goals

- *Attract donations and sponsorships.*
- *Encourage volunteer participation.*
- *Provide information about upcoming community events.*
- *Increase awareness about the organization's community events.*

Key performance indicators

- *Increased participation in community programs.*
- *Number of volunteer registrations.*
- *Increased website traffic.*
- *Number of enquiries from donors or sponsors.*

➤ **Current Website Analysis**

Strengths

- *Active volunteer participation.*
- *Meaningful community programs.*
- *Strong community engagement.*

Weaknesses

- *No central platform for volunteer registration.*
- *Limited online visibility.*
- *It is difficult for donors to find reliable information.*

Opportunities

- *Create a professional website.*
- *Allow volunteers and donors to contact the organization easily.*
- *Provide clear information about programs.*

➤ *Proposed website features and functionality*

The proposed website will consist of several pages that provide information and allow visitors to interact with the organization.

Homepage (index.html)

- *Introduction to the organization*

-
- *Hero image*
 - *Call-to-action buttons*

About page (about.html)

- *Team members*
- *Mission and Vision*
- *History of the organization*

Programs (sprograms.html)

- *Volunteer opportunities*
- *Details about community programs*

Enquiry page (enquiry.html)

- *Volunteer and sponsorship enquiry form*

Contact page (contact.html)

- *Contact form*
- *Map showing locations*
- *Contact information*

➤ **Design and user experience**

Colour Scheme

- *Green (community growth)*
- *Orange (energy and positivity)*
- *White (Simplicity and clarity)*

Typography

- *Body text*
- *headings*

Layout

User experience Considerations

- *Simple enquiry forms.*
- *Clear call to action buttons*
- *Mobile friendly design*
- *Easy navigation menu. (Krug, Steve, 2014).*

➤ *Technical Requirements*

The technologies that I will use for Website.

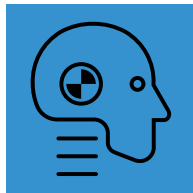

- *HTML for website structure*
- *CSS for styling and layout*
- *JavaScript for interactive features. (Duckett, Jon, 2011).*

Hosting

Hosting provider's

- *GoDaddy*
- *Host Africa*
- *Afrihost*

➤ *Testing and quality Assurance*

Testing and quality assurance ensure that the Hlanganani Community Support website functions correctly and provides good user experience. Navigation testing will be conducted to confirm that all links between pages work properly. The website will also be tested on different browsers such as Google Chrome and Microsoft Edge to ensure compatibility. Content testing will check that all text, images, and information are displayed correctly. The enquiry form will also be

tested to ensure users can submit their details successfully. Finally, the HTML code will be reviewed to ensure it follows proper web development standards and does not contain errors. (World Wide Web Consortium, 2023).

➤ **Budget Estimate**

<i>item</i>	<i>cost</i>
<i>Website development</i>	<i>R5000</i>
<i>Domain registration</i>	<i>R200</i>
<i>maintenance</i>	<i>R1000</i>
<i>hosting</i>	<i>R 800</i>

Estimated total R7000.0
